# A CUT ABOVE

## McKendree College
## Oldest College in Illinois

Because McKendree is the oldest college in Illinois, it is **a cut above** all the rest. Old Main, the oldest building at McKendree College and pictured at the left, was completed in 1850, twenty-two years after the college was founded. Dr. Pat Folk, professor of history and supervisor and preserver of the McKendree archives, stated, "One thing people don't realize is the number of dedicated people who have make so many sacrifices to make this college possible. It's amazing the college has survived given that it is one of the best schools in one of the poorest areas of Southern Illinois." This also is what makes McKendreeCollege **a cut above** the others.

## Head Coach

### Harry Statham

Harry Statham, the NAIA's winningest active basketball coach, enters his 29th year at the helm of McKendree College men's basketball. While accruing 631 victories as head coach of his alma mater, Statham has taken his team to national prominence on a number of occasions. The Bearcats have qualified for post-season play 25 times in 28 years including three trips to the NAIA National Championship. Most recently, the Bearcats earned a spot at the 32-team tournament in 1993.

In 1988, the Bearcats established an NAIA record for most points scored by two teams when McKendree College beat Huron College 124-107 in the opening game of the national tournament. This record of 231 total points scored in one game, still stands today.

Such high scoring games are a trademark of Statham's teams. In 1986-87, his Bearcat squad led the nation in scoring with a 105-points per game average for the entire season.

Another national record was set by the Bearcats in 1979 when McKendree College successfully shot 39 of 39 free throws in one game. Today, no other four-year collegiate basketball team has bettered that Bearcat feat.

# WOMEN'S BASKETBALL

## Stinchfield ends record-setting cage career

**The 6-foot-2 Stinchfield, a Southwestern High graduate, led McKendree to a 24-11 record and was named American Midwest Conference player of the year.**

By R.J. GERBER
Telegraph sports writer

LEBANON — Cheryl Stinchfield recently closed her basketball career as one of the most accomplished players in McKendree College history.

The 6-foot-2 center was a second team NAIA All-America selection and helped the Bearcats to their first 20-win season.

"I am thrilled that on the heels of our outstanding season and a tremendous individual season and a tremendous career at McKendree will be culminated with such a renowned award," McKendree coach Ann DeBoe said.

Stinchfield, a Southwestern High graduate, led McKendree to a 24-11 record and a runner-up finish in the American Midwest Conference tournament. Stinchfield was the league's player of the year after posting some impressive numbers.

A third team All-America as a junior, Stinchfield averaged 17 points and 7.6 rebounds per game this season. She made nearly 51 percent of her field goal attempts, blocked 63 shots, recorded 80 steals and 61 assists.

She's the only woman in McKendree history to surpass 1,000 career points and 1,000 career rebounds.

But the team's success is more important to Stinchfield. After winning just 13 games during her first two years, Stinchfield helped the Bearcats to successive winning campaigns.

"We all really got along well and worked together — that helps out a lot," Stinchfield said. "At first when I was here I didn't like it because I wasn't used to losing so many games."

After transferring from Collinsville High to Southwestern following her sophomore year, Stinchfield made her mark as a Pizza Bird.

Then a Medora resident, she was the lone underclass starter during Southwestern's 1990-91 season when the Birds placed third in Illinois in Class A.

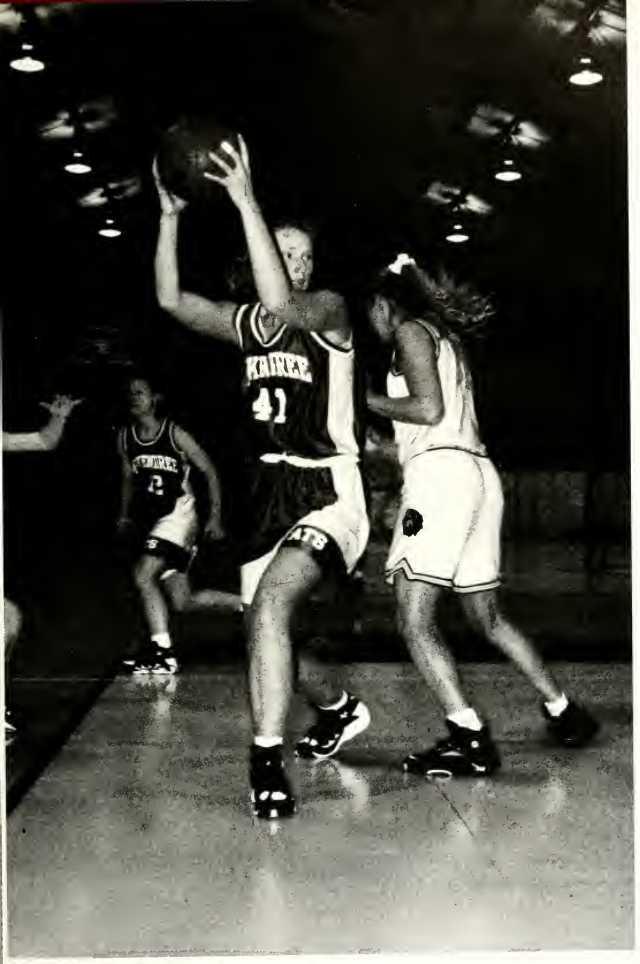
A two-time Telegraph All-Area first-team choice, Stinchfield led all local players her senior season with a 23.9 scoring average.

"It's satisfying to know that we had the best season ever at McKendree," said Stinchfield, who's since moved back to Collinsville. "There were times that I had to tell the younger players to keep their heads up just like when I was their age."

Stinchfield ended her career with 1,973 points, an average of 16.7 per game. She corralled 1,066 rebounds (9.0 per game), blocked 252 shots, made almost 55 percent of her shots from the field and 79 percent from the free-throw line.

Now, she's turning her attention to getting her degree in physical education and becoming a teacher and coach. Stinchfield said she'd like to work at a school like Southwestern.

"I'd like to teach at a small school because it's more relaxed. It's not a big school like Collinsville where you kind of get lost in it all," Stinchfield said.



# McK Women accrue impressive basketball honors

This week in Reviewing Sports we will return to the McKendree woman's basketball team. As most of you know, this team was the one that got the writer involved with writing articles for the *Advertiser*. Since the last article on the American Midwest Conference championship game, many individual and team awards have been collected.

Recently at the McKendree Winter Sports Banquet on April 15, nine members of the team were recognized as academic all-conference players. Those honored included: Angela Arbeiter, Gina Bloemer, Kari Crnkovich, Brandi Higgins, Julie Gray, Amy McMullen, Kelly Suess and Erica Weihl. Each of these students earned a 3.0 or higher grade point average.

Other individual awards given were to Angela Arbeiter as McKendree's most improved player; top defensive player went to Gina Bloemer; Kari Crnkovich won McKendree's best free throw award, while Cheryl Stinchfield was named the team's most valuable player. Stinchfield led the Bearcats with 17 points and 7.6 rebounds per game.

**Stinchfield was also selected as the American Midwest Conference Player of the Year by the opposing AMC coaches.** In addition, Stinchfield was named to the First Team American Midwest All Conference. Finally, Stinchfield was also selected to the 1995-96 NAIA Division I All-American Second Team and was one of ten players selected to the Eastman Kodak All-American Team. Cheryl Stinchfield had an outstanding season along with an outstanding four-year career for the Lady Bearcats.

The team statistics are the most important. When the team made it to the championship game, played tough competition and ended up sporting a 24-11 record, this is what wins individual awards. These team accomplishments also did not go unnoticed by the Illinois Basketball Coaches Association. The IBCA selected McKendree Coach Ann DeBoe as its 1996 NAIA Women's Basketball Coach of the Year.

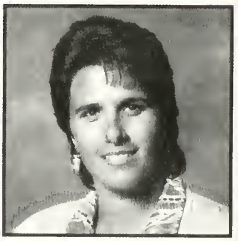
## Head Coach
### Ann DeBoe



Ann DeBoe enters her fifth year directing the McKendree College women's basketball team. DeBoe's Bearcats finished the 1994-95 season with a 17-16 record, the first winning season in McKendree College women's basketball history. A casual glance at previous Bearcat records shows a steady climb. Since DeBoe arrived at McKendree College in 1991, the women's basketball team's wins per season have steadily increased. A closer study of the numbers reveals a steady increase in the strength of the Bearcats' schedule. Playing nationally ranked NAIA teams has become the norm for women's basketball at McKendree College. For the third consecutive year, the Bearcats will participate in the prestigious East Central University Tournament. This tournament features a number of top 10 teams including the two-time defending NAIA national champions, Southern Nazarene University, and the national runner-up, Southeastern Oklahoma State University.

### Melissa Jones

The rapid emergence of McKendree College women's athletics in the American Midwest Conference and in the National Association of Intercollegiate Athletics can largely be attributed to Melissa Jones.

Last season, Jones led her softball team to a fourth place finish at the NAIA National Softball Championship. This is the highest placing of any athletic team in 135 years of collegiate sports competition at McKendree College.

# FOUNDER'S DAY CELEBRATES 168 YEARS

McKendree College celebrated its 168th anniversay on February 20. To mark this event, McKendree invited back some of its most prominent people for Founder's Day '96. Bishop William McKendree, who founded McKendree College, got to meet Dr. W. C. Walton, who was a dean of the college at one time. The bishop also got to meet Governor Charles Deneen and his father, Adjutant Samuel Deneen, as well as Mrs. Edith Flint Thrall, Miss Marion Bothwell, and Erica Weihe, who represented today's McKendree student, and Dr. James M. Dennis, McKendree's current president.

McKendree College was founded in 1828 by Bishop McKendree as a men's seminary school. Adjutant Samuel Denen was an officer in the Union Army and was the leader of the 117th Regiment. This regiment from McKendree fought in the Civil War. Adjutant Deneen's son, Charles, grew up around McKendree and was also a student. After attending McKendree, Charles Deneen went on to become the governor of Illinois.

In 1869, women were allowed to attend McKendree and one year later, the first woman to graduate was an education major, Mrs. Edith Flint Thrall. Miss Marion Bothwell told Bishop McKendree how her family gave money to the school to help maintain the chapel and set up a scholarship fund for seminary students. Erica Weihe, who is a current McKendree student, told Bishop McKendree what it is like to go to school today at McKendree. She also told him about some of the modern conveniences McKendree has, such as computers and MicroFridges in every dorm room.

After Bishop McKendree met with these prominent people, the chapel bell was rung 168 times at noon in honor of the McKendree's anniversary.

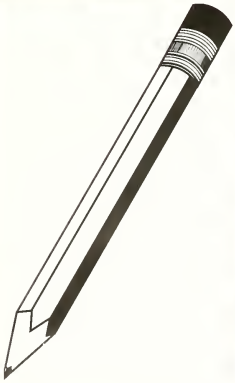
# McKENDREE REVIEW



# PSYCHOLOGY CLUB

McKendree students who were interested in psychology had an opportunity to expand their knowledge through the activities of the Psychology Club. Field trips were planned during the year to facilities such as Alton State Mental Hospital and Lebanon Terrace. Guest speakers covered such topics as domestic violence and hypnotherapy.

This was the first year the Psychology Club offered a scholarship , and the first recipient was Angie Loethen. Officers were Rich Blondin, President; Amy Foster, VicePresident; Heather Lacquet, Secretary-Treasurer; and Andy Hetzel, Public Relations.

# TECHNO STUDENTS VISIT CAMPUS

From February 16th through February 29th, Techno International students visited McKendree. While some students stayed with area host families, others stayed in the dorms to experience American college life. During their visit to McKendree, the Techno students attended some classes and visited other classes. They also went shopping and sightseeing in St.Louis. Not only was their stay at McKendree educational for them, it was also a learning experience for students here at McKendree.

On February 28th, the Techno students held an open house and shared a little bit of themselves and their Japanese culture. After they shared the art of orgami with us, we shared our art with them, teaching them how to make a jar on the wheel in the ceramics room of the art building.

In all, the Techno students and McKendree students learned much from each other in the two short weeks they were on our campus.

*A Cut Above*, the 1996 McKendrean yearbook, was produced by the yearbook staff in Benson Wood, formerly McKendree's library, now the art building and pictured to the left. The 9 x 12 book consisted of 100 pages printed on 80# Bordeaux paper. The Vista Lith cover was done in four-color process with artwork designed by the editors at the 1995 Herff Jones Yearbook Camp at Millikin University in Decatur. The title was done in gold foil. The front and back endsheets were school-designed using a bear claw in black ink printed on taupe Vibracolor paper. Copy was done on a Macintosh computer and submitted on TypeMaster, a PageMaker template, using Helvetica typeface. The book was printed by Herff Jones at its plant in Marceline, Missouri. Press run was 150 copies. Highfill School Pictures of Peoria did the portraits.

Editor Marsha Reynolds poses with Mr. Dave Ottinger and Mr. Jim Drake who assisted with the yearbook.
